

AI Assistant Face - End-to-End System Flow

How text, commands, animation data, audio, and Pygame rendering move through the current project.

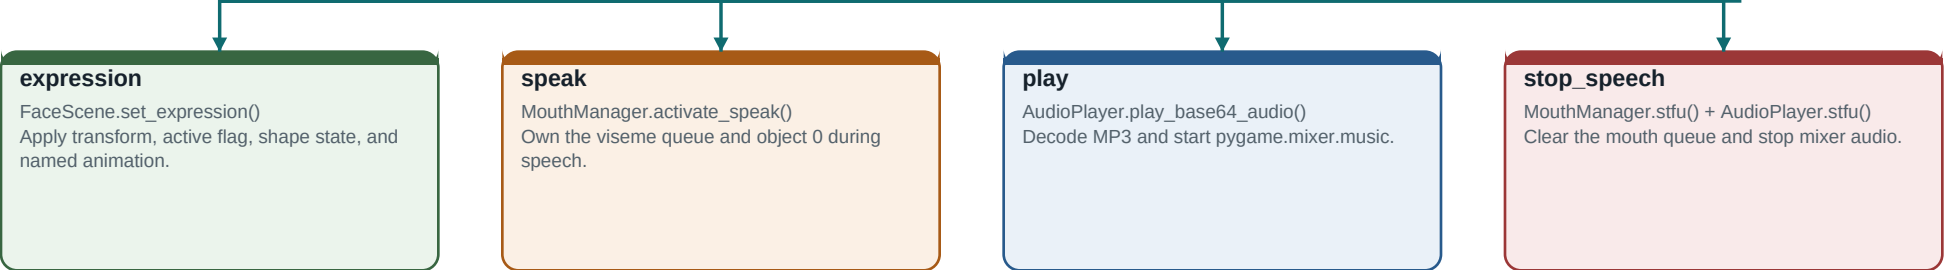

COMMAND PRODUCERS AND EXTERNAL SERVICES

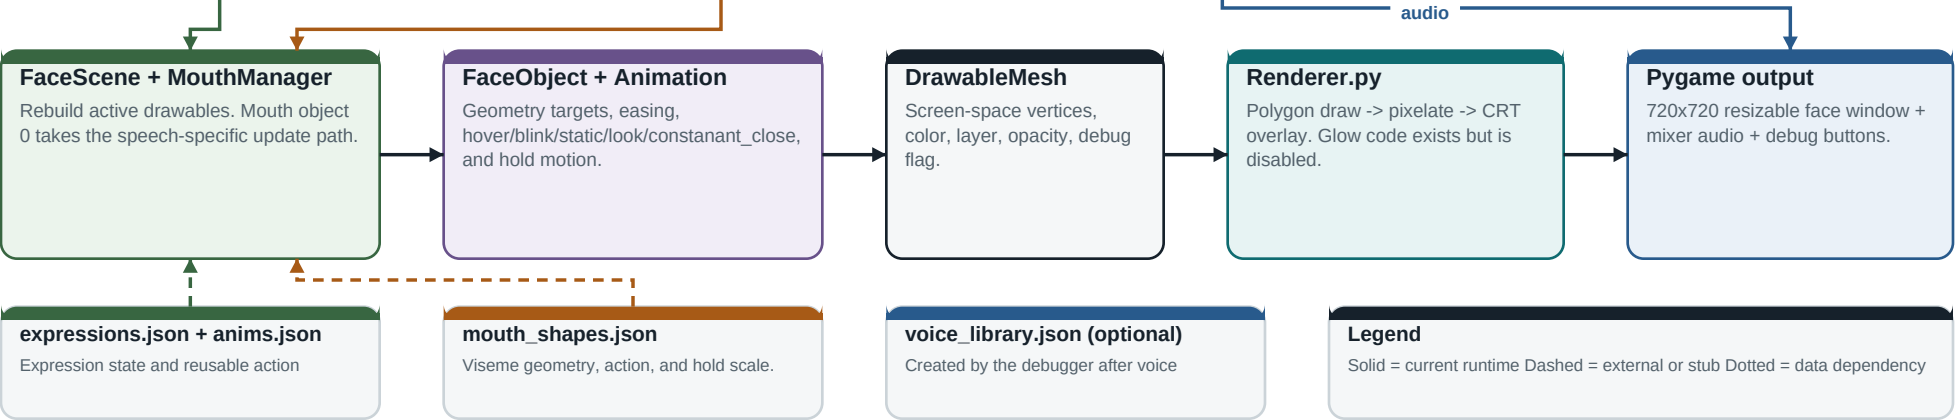

ADAPTER AND TRANSPORT ROUTE

COMMAND DISPATCH

FRAME STATE AND OUTPUT

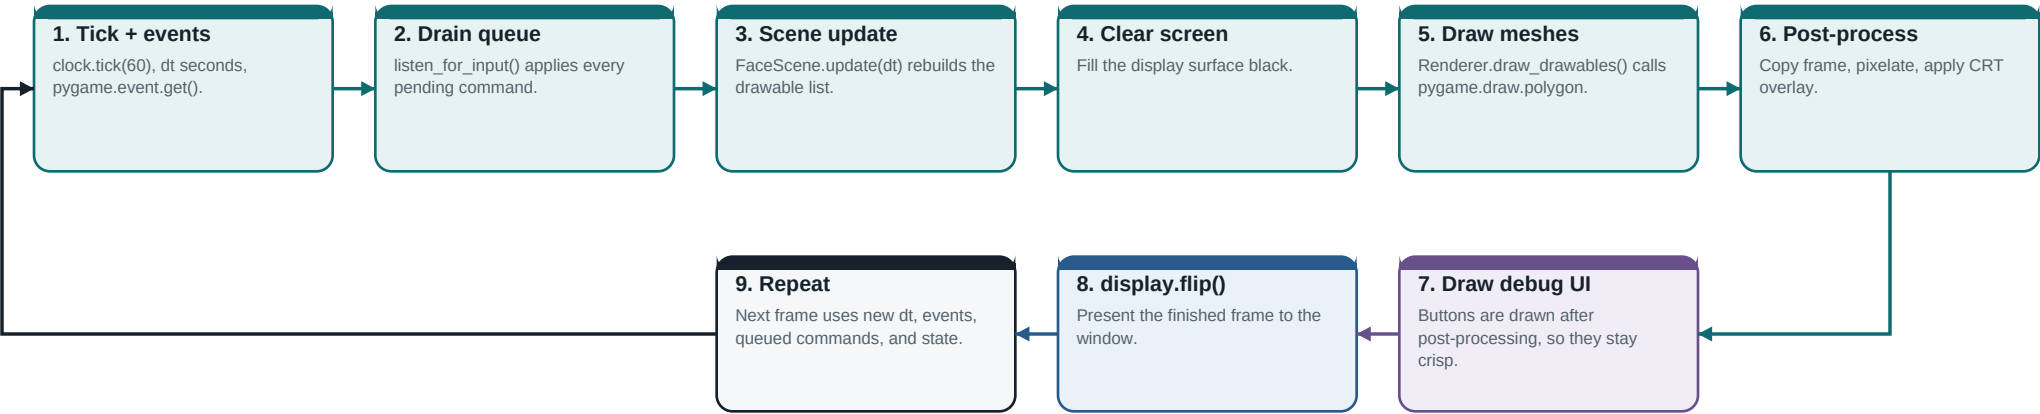

Frame Loop, Geometry, and Rendering Flow

The exact order of work from startup through each 60 FPS update and screen presentation.

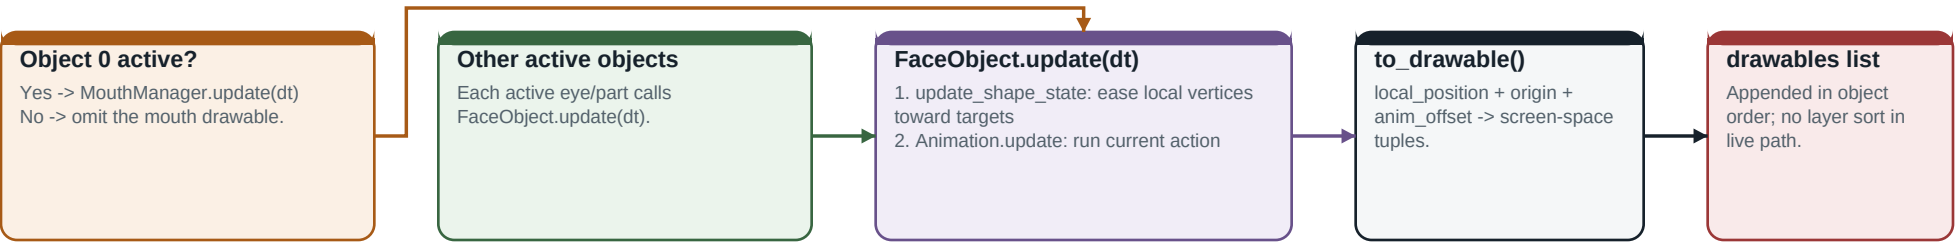

STARTUP SEQUENCE

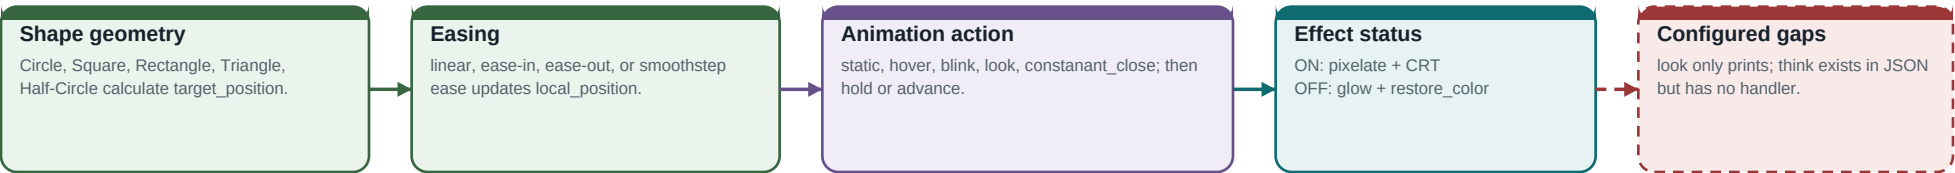

ONE FRAME - MAIN PATH

WHAT HAPPENS INSIDE SCENE UPDATE

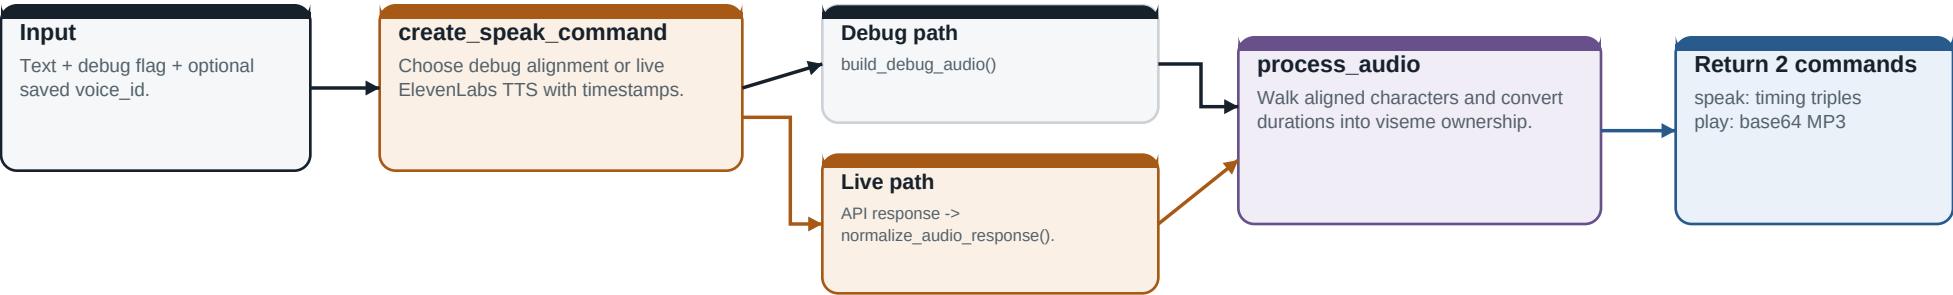

GEOMETRY AND ANIMATION STATE

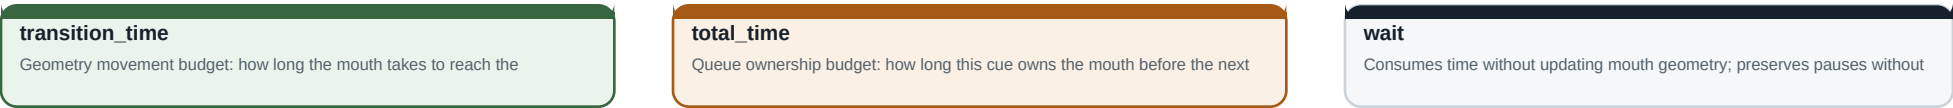

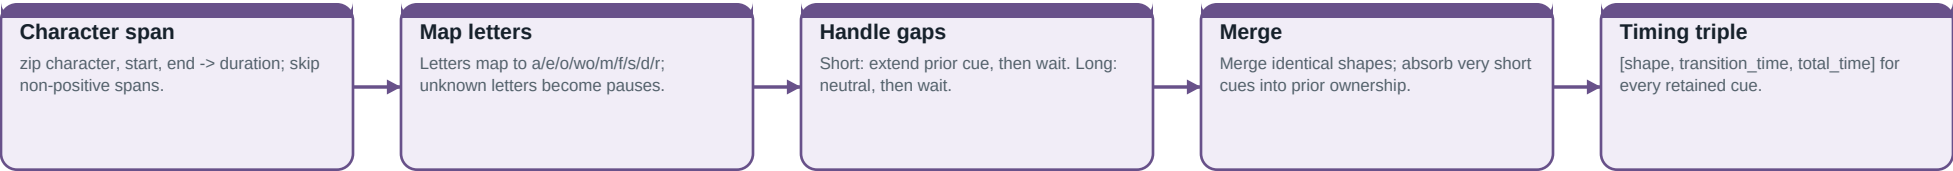

Speech, Audio, and Mouth Timing Flow

How one text response becomes aligned audio plus a frame-owned viseme queue.

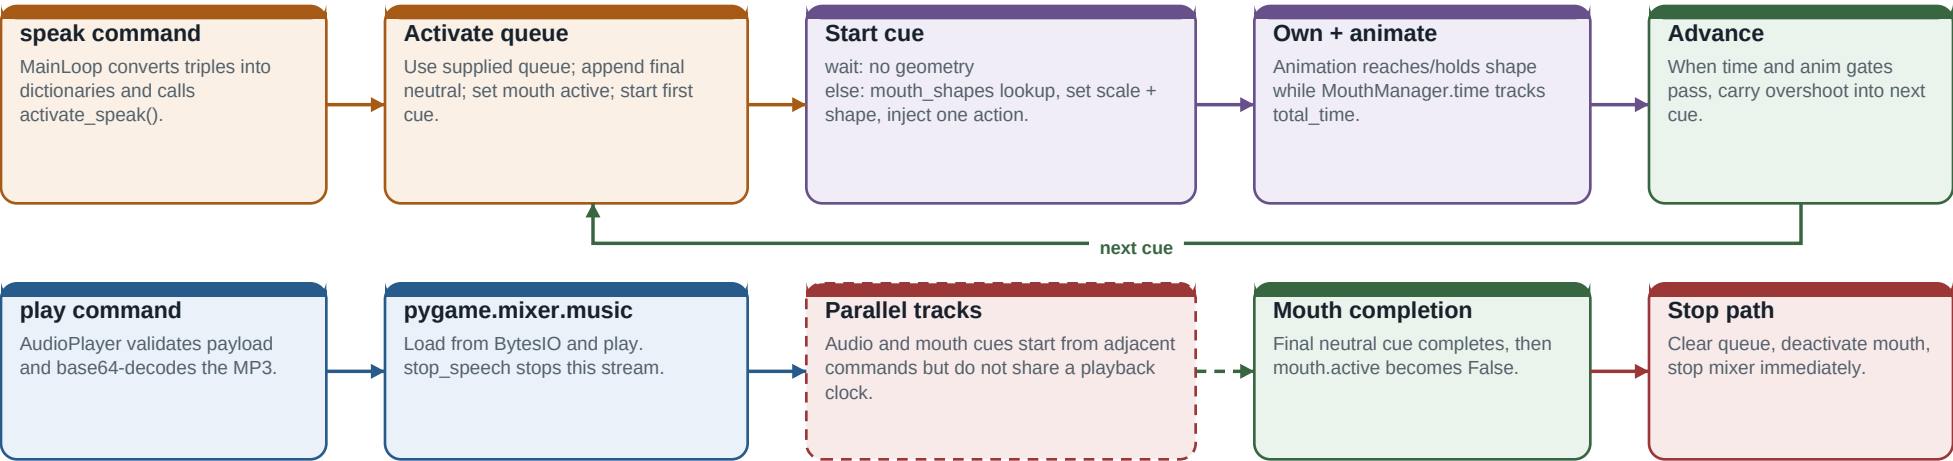

CREATE COMMANDS

ALIGNMENT REDUCTION - PROCESS_AUDIO

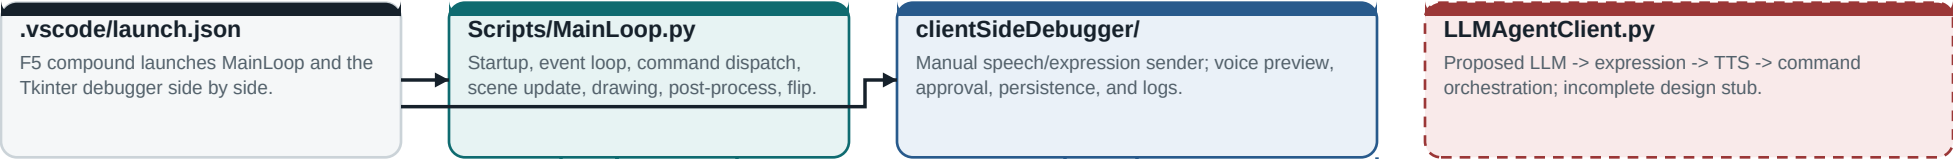

RUNTIME SPLIT AFTER TCP DISPATCH

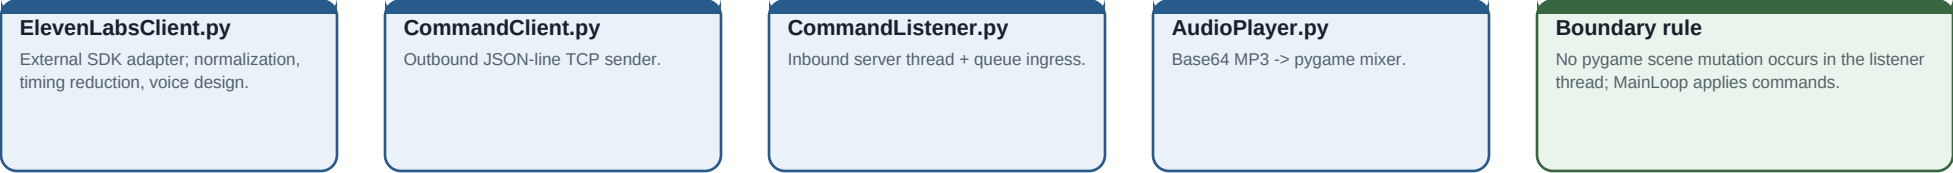

Repository Ownership and Dependency Map

What each file owns, what it depends on, and which paths are complete versus provisional.

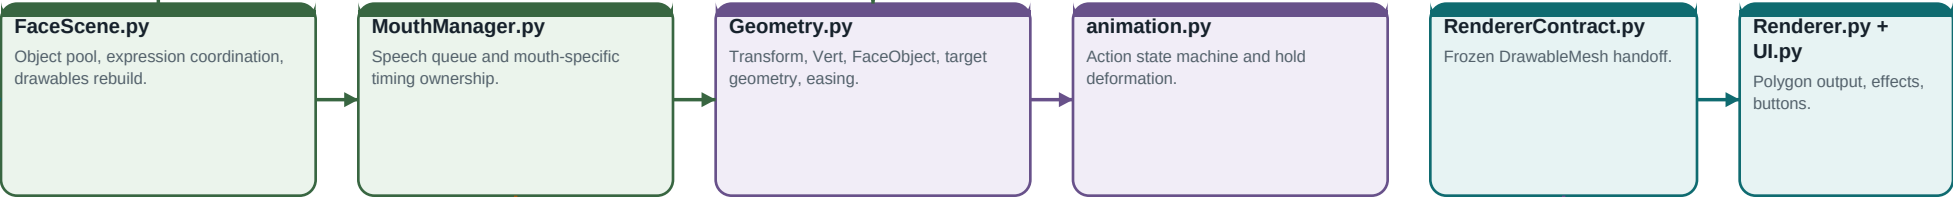

LAUNCH AND TOOLING

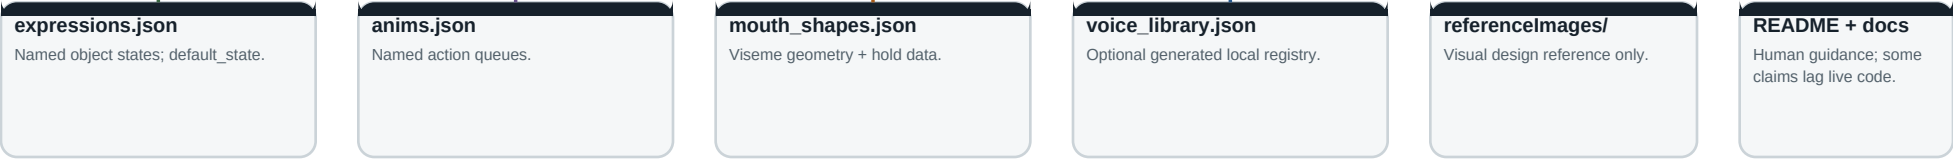

INTEGRATION BOUNDARY

DISPLAY AND SCENE BOUNDARY

DATA AND REFERENCE FILES

CURRENT STRUCTURAL DEBT - USEFUL WHEN READING THE FLOW
